

A SERIOUS CRISIS

Is Likely to Occur at Havana at Any Moment.

A BODY GUARD OFFERED LEE.

That the American Consul Declines - Detail of Detectives in Plain Clothes Increased with a View to His Protection as He Goes About the City - A Prominent Cuban Banker Says Havana Might be Likened to Vesuvius, Liable to Eruption at Any Moment.

NEW YORK, March 28.—A dispatch to the Herald from Havana says: Secretary General Congoito asked Consul General Lee to permit him to furnish him with a personal body guard. General Lee declined this offer and General Congoito contented himself with increasing the detail of plain clothes detectives, which for weeks have kept a careful eye on General Lee at all times with a view to his protection as he goes about the city.

Consul General Lee believing that a serious crisis in affairs is likely to occur at any moment, is to-day preparing a revised list of all Americans now in Havana, together with their addresses, so that in case of emergency they may be communicated with at short notice. There is an extra guard now around the American consulate.

It is now said on good authority that the Mangrove which sailed for Havana on Friday, went there ostensibly to bring away material saved from the wreck, but really to be on hand in case of an outbreak in Havana, so that Americans could take refuge on the vessel, avers the Key West correspondent of the Herald.

Twenty-one American citizens arrived here on the steamer Olivette, from Havana. Among these were Captain Sigsbee and other officers of the Maine ordered home by the Washington authorities. Captain Childwick will remain here temporarily; all the other officers continued north.

TAMPA, Fla., March 28.—The consensus of opinion is that an exodus of Americans will take place, owing to the recent attitude of the American government. Unusually strict censorship has been maintained over the cable, to prevent any information being known regarding the attitude of the United States government, the authorities fearing violent demonstrations of the American residents of Havana.

Among the passengers who arrived was Julio Hidalgo, of the prominent banking firm of Hidalgo & Co., Havana. No better informed person than Mr. Hidalgo or one who is better qualified to express an opinion regarding the present conditions in Havana has been found. The fact of his being a careful, conservative business man gives weight to any assertion he might make.

He said that the city of Havana might be likened to Vesuvius, liable to eruption at any moment. The enforcement of stringent measures, aided by bayonets, had been able to hold the rabid populace in check, but he feared this element was determined now on a conflict with the United States and could no longer be controlled, more especially as the movement would have among its most active leaders and ardent supporters, well known military officers and prominent merchants of the island. Once started there was no telling, he said, where an uprising would end.

He Saved It.

A certain Cleveland youth has a watch which he tenderly cherishes. Several years ago, says the Plain Dealer, it was given him on his birthday, and there wasn't a prouder youth in town. The very night after he received it he was in a party. After the affair was ended he asked permission of one of the young women to see her home, and his escort was accepted. She lived some distance from the scene of the party, and as he walked along with her he felt a little dubious about his personal safety. There was a good deal of talk about footpads, and some very bold hold-ups had occurred. Presently he noticed a suspicious character dodging along in the shadow across the street. The suspicious-looking character finally hurried ahead of them and then crossed to their side of the street. This was too much for the youth.

"Say," he said to the young woman in a hoarse whisper, "you'll have to get the rest of the way alone—I'm blamed if I want to lose this new watch!"

And he actually left her then, and there he hurried along the back track. She wasn't far from home, and didn't mind the desertion a bit. But the deserting youth didn't hear the last of the story for many months.

A Conscientious Debtor.

Harper's Magazine: "Now, look here, Thompson," remarked Brown. "It has been six months since you borrowed that \$5 from me."

"Seven," corrected Thompson gravely.

"Well, then, seven months," snorted Brown, "and you promise to give it back to me in a week. Promised faithfully, you did, to return me it in seven days, instead of months."

"I know it," answered Thompson, sadly, drawing a memorandum book from his pocket. "That bill was 'Series F. No. 67229, issue of 1887.' I made the note, and then I spent the money. Since then I've been trying to recover it."

"But," howled Brown, "any other would do as well."

"No," responded Thompson, shaking his head. "I'm a man of my word. When you gave me the bill I said, 'I will return this to you,' and I meant it. Brown, old man, just as soon as I come across No. 67229, Series F, issue of 1887, I'll see that you get it, for I'm not the one to go back on my promise."

Produced by Spain.

Many of the necessities of to-day and the sciences came originally from Spain. Algebra, for one thing, originated there.

The first clock which struck in Europe was a present from Haroun-al-Raschid to Charlemagne.

Spain produced the compass as well as gunpowder.

It was in Seville that the game of checkers originated.

From Grenada came the dulcimer; from Cordova the guitar, and from the people the serenade.

Spain produced the Cid, Christopher Columbus and notable travelers, and during the mediaeval times in art, science and learning it had first rank. Before the Visigoths overran the country was its time of glory—after that its decline set in.

BELLARE.

All Sorts of Local News and Gossip From the Glass City.

Martin Cowen left yesterday for Mansfield in the interest of the pure food department. Some of the Toledo attorneys have made serious charges against this department in connection with Mrs. Winslow's Soothing Syrup, but Commissioner Blackburn met them promptly and asked for investigation. He has been expecting this and a series of suits against those making charges of demands for hush money is mapped out.

Howard Bishop, a workman at the steel works, was struck on the head yesterday by a piece of iron that fell from a platform at the works, and sustained quite a serious wound. He was rendered unconscious by the blow and Dr. Mindesinger was called when it was found he was severely but not dangerously hurt.

Rev. W. M. Langford, the colored minister of the Second M. E. church, left yesterday evening for conference at Terre Haute, Ind. He has been here three years and has done good work among his own people and enjoys the respect of many white people. His church unanimously ask for his return.

M. Lein, of New York City, traveling salesman for the Stewart Enameling Company, of this city, is here for a few days. Mr. Lein disposes of the entire output of the better class of ware made by that company and travels from the Atlantic to the Pacific.

The bridges over McMahon's creek in this city, were put in repair yesterday and in the evening both were open for travel. The electric railway people assisted in repairing the one they use on Belmont street.

All of the industries in this city will be in operation to-morrow again, and they have business enough to make the outlook most encouraging. Manufacturers and workmen are well pleased with the prospects.

There is no mail reaching Sistersville from this city or any other city on account of the Ohio River railroad not being able to run. It is stated that this road will not be able to run for ten days or two weeks.

The G. A. R. and Sons of Veterans' bazaar at Turner hall includes a season of dancing every night and the great crowds that gather there have a good time. It will close Wednesday night.

The dance which was to have been given by the Sub-Rosa Club last Wednesday evening, will be held this evening in Armory hall.

Miss Alma Snedeker has returned to Columbus, after spending a few days with relatives in the Fifth ward.

R. C. Haase returned yesterday to Newark, after spending Sunday with friends in this city.

The Choral Society will hold a meeting this evening in the First Presbyterian church.

BENWOOD.

Breezy News Items Gathered in the Busy Marshall County Town.

It will be several days yet before the last vestige of the flood has been removed from the streets and houses in Benwood. Everything is mud, and citizens will be confined to the work of its removal first before the wheels of business run smoothly. On Main street the mud is piled in heaps and forms a taffy-like sea on the back streets. The schools will hardly resume before the middle of the week. A cheering feature of the flood was the fact that despite handicaps the electric light company furnished the patrons with light, and the officials are thereby being commended.

While every person suffered more or less, fortunately the extent of damage is slight, the chief loss being a loss of time and some inconvenience. The city is put to some expense in getting the streets cleaned.

The case of Oscar McMillan vs. the town of McMechen will be tried in Moundsville, March 30. The case is an appeal from Justice Riddle's decision, giving McMillan \$100 damages for an injury to his horse on the "Cherokee Strip," when it belonged to McMechen.

Street Commissioner Martin had a big gang of men at work yesterday, cleaning up the streets. And they will have their hands full for awhile. The Sunday Register said the flood debris should have been cleaned off long ago.

Rev. Mr. Metzger, of Reynoldsville, Pa., preached at St. Matthew's Lutheran church on Sunday, and made a favorable impression. It is not unlikely that he will be tendered a call to this church.

The Benwood M. E. church is jammed full of bedding, pianos, furniture, etc., the Central school and city hall likewise. These buildings were very convenient for flood sufferers.

Dr. J. C. Hood, of Louisville, Ky., and coroner of that city, is visiting his brother, Alex. Hood, of Mount Olive, who is now at the Emergency hospital for treatment.

Yesterday was city pay-day and the pay roll amounted to \$883 17. Last Wednesday was the regular pay-day, but then came the flood.

The Republican executive committee meets this evening in Squire Riddle's office.

William Murray, of Youngstown, and an old Benwood boy, is visiting here.

WHAT THE BACHELOR SAYS

Man proposes; God disposes. Woman wishes she did both.

A woman who truly loves her husband will like to clean out his old pipe.

There is only one excuse for being an old bachelor and that is nobody else's business.

The man who kicks his way through life may not have as many friends, but he gets a lot better treatment from those he does have.

A woman's ideal of a wife is one who gives up everything to her husband; a man's ideal of a wife is one who gives up everything to him.

If a blow came with every kiss, a man would take the blow first and the kiss afterward. A woman would take the kiss first, so as to make sure of it.—New York Press.

The New Woman Defined.

There was an interesting competition for the best definition of "the new woman," which was conducted recently by an English newspaper. The prize went to this saying: "A fresh darn on the original blue stocking." Among other suggestions were: "Six of one and half a dozen of the other." "One who has not yet attained to be a gentleman." "Man's newest and best reason for remaining single." "Mannishness minus manliness."

FINANCE AND TRADE

The Features of the Money and Stock Markets.

NEW YORK, March 28.—Money on call easier at 10 1/4 per cent; last loan 1 1/2 per cent. Prime mercantile paper 5 3/4 per cent. Sterling exchange weak, with actual business in bankers' bills at \$4 83 1/4 for demand and at \$4 80 1/4 for 60 days. Postpaid rates \$4 81 1/4 and \$4 82 and \$4 84 1/4. Commercial bills \$4 79 1/4 to 80 1/4. Silver certificates 55 1/2 to 56 1/2. Bar silver 55 1/2. Mexican dollars 47 1/2.

The familiar spectacle was presented on the stock exchange to-day of a violent reaction upon the culmination of an event which has long been anticipated and accounted. The facts were that the findings of the Maine board of inquiry were presented to Congress and were proved to be exactly as foreshadowed. That is to say, the Maine is found to have been blown up by a submarine mine. Ever since the morning after the explosion the stock market has been depressed by the constant dread that this report would be formulated by constituted officials of the United States. The speculative public assumed that such an allegation would necessitate a rupture between the United States and Maine and a consequent damage to values of all securities which it was attempted to measure by a constant decline in prices since the date of the explosion almost up to the present time. Yet the actual publication to-day of the report resulted in a rebound in prices which at the high point of the day had wiped out a large proportion of the losses which have occurred since the explosion in Havana harbor. This was brought about by the movement of the bear traders to take their profits. When the shorts began to bid to-day they found bull operators in full competition with them bidding up prices. The result was a scramble by the shorts which reached the proportions of a bear panic during the day and sent prices higher. Closing prices were by no means at the highest, the specialists showing reactions ranging up to 4 1/2 points in Metropolitan Street Railway. Prices all through the list were markedly below the best, yet there remained such striking gains as 7 1/2 in Pullman, 7 1/2 in Metropolitan Street Railway, 6 1/2 in Sugar and from 4 to 5 points in New York Central, Burlington, St. Paul, Northwest, Rock Island, Delaware & Hudson, Louisville, Lake Shore, Manhattan, New Jersey Central, Union Pacific preferred and over 3 points in a large number of other prominent stocks. The transactions for the day foot up considerably over three-quarters of a million shares, a total which had not been equaled since last fall.

The bond market showed largely increased activity. Total sales \$3,000,000. Government bonds were very strong. The new 4s advanced 2 1/2 per cent and the old 4s 1 1/2, the 2 1/2 and 5 1/2 per cent bid, and there were sales of the new 4s coupon at 121, which is 3 per cent over Saturday's bid price.

Evening Post's London cablegram: The stock markets opened here flat to-day on the settlement prospect. Americans were the weakest. The Paris bourse was better; the Berlin market quiet.

Breadstuffs and Provisions.

CHICAGO.—The question of peace or war overshadowed all else on 'Change to-day. Assumptions of a peaceful solution of the Cuban question resulted in sharp recoveries from early declines and with the exception of oats everything closed strong and higher. Wheat advanced 5c for July and 1 1/4c for May. Corn closed 5 1/2c higher; oats a shade lower and provisions 1 1/2 to 1 1/4c higher. The leading futures ranged as follows:
